# ATTENTION NOW!!!! In the next page you will select the topic of your PhD grant.

## Remember that topic A is related to IIT grants:

**Constrained topic A)**

**The research scholarship supported by IIT (n. 5) are constrained to the following topics:**

- Neurotechnologies;
- Photonics for the brain and the body;
- Optogenetics;
- Implantable and edible electronic devices;
- Wearable devices and epidermal electronics for health monitoring;
- Two-photon lithography for material processing and nanofabrication.
- AI and deep learning applied to data science and data analytics for technology design.

For scholarships funded by IIT, research projects take place in close collaboration with IIT. Research activities will be also performed at the “Center for Biomolecular Nanotechnologies”, in Arnesano (Lecce).

You can select up to two grants:
